

Emancipation of Women

The College has continued the visionary initiative 'emancipation of women' for the session 2017-18 too. Even the area is concretized for realizing a positive outcome.

The College has to build a high standard of excellence in the preservation and creation of knowledge through teaching, learning and experiment. To serve as an effective instrument of development in the path of educational progress and total awakening of the rural people and to remove the backwardness of the entire southern part of Nagaon district. It is more interesting that students having different socio-economic background are enrolled in this college. However, women empowerment is one of the thrusting areas, actually the ratio of women is reasonably high and it is encouraging enough that every year the women are outnumbering the male students. It is advantageous for women students that they can impart education within the propinquity of their domestic environment. Besides, the rural women are mostly but unnecessarily controlled by their family members, even marriage in early stage is quite popular in this locality and despite of such constrictions, women are getting ample opportunities to acquire knowledge or impart education in such rural setting.

The college has been providing a vocational course "Cutting and Knitting" so that women get basic knowledge in managing their garments. It is crucial for individual as well as group level; even women can choose their profession and contribute in the household income. It helps in becoming self sufficient in modern competitive situation.

Another pertinent area for women is recruitment in military or paramilitary forces. The NCC of Kampur College has provided an extra mileage to get recruitment in defence forces. The number of women has been considerably increasing day by day and which is helpful in strengthening unity as well as capacity building of women. The leadership quality particularly for women is also essential for the society.

Furthermore, gender neutrality in the college premises is also contributing in women empowerment. The college usually focuses on equal opportunities in teaching learning process, sports, student politics and so on. Hence, women empowerment is one of the visionary and thrusting areas from the college end.
